

After working for more than one year after residency, I can confidently say that the Conroe Family Medicine Residency has more than prepared me for the real world. I would say that the education I received at this unopposed program was truly exceptional and would have prepared me for whatever I wanted to practice as a family physician. The faculty physicians and staff there are all wonderful people who really cared about our education. I am grateful to have graduated from this program.

Vinh Dang, M.D.

Class of 2019

Lone Star was my first choice for residency because of its unopposed status and small group of residents and faculty, which made me feel that I would have ample opportunities and first-rate training there. After finishing my training, I know it was the best choice for me. Though the program was rigorous and challenging, I feel more prepared than I ever have for my career in medicine. Going into the workforce, I felt confident that I was qualified for any job I was applying to, which was a nice change from the Imposter Syndrome I sometimes felt. Lastly, the location is ideal: it's close to Houston with a variety of amenities, but not so much that you feel any of the city traffic!

Elizabeth Slauter, M.D.

Class of 2020

Conroe Family Medicine Residency Program was perfect training for a career in full spectrum family medicine. I was able to tailor my rotations to help me gain confidence in areas I felt weak. I got an excellent clinic experience. The faculty were top-notch. I had access to multiple specialists in a one-on-one scenario. Conroe made me the doctor I am today, and I am forever grateful.

Alyssa Molina, M.D.

Eagle Lake, TX

Class of 2010

It is excellent training for Family Doctors. In my current practice I round on patients in nursing home and hospital and I would not be able to if it was not for the excellent training I received at Conroe. Great people to work with as well.

Micah Bosley, M.D.

Tomball, TX

Class of 2016

"It wasn't until I had been practicing for several months that I really realized how well I was trained at Conroe. At the beginning I kept waiting for the patient that would exceed the limits of my abilities and they just never came. My medical career thus far has been extremely rewarding thanks to my time at Conroe."

Bart Klaus, M.D.

Columbus, TX

Class of 2016

"Conroe Family Medicine program provided a supportive atmosphere for me to develop a solid foundation in inpatient, critical care and emergency medicine. This enabled me to confidently accept a position as the medical director for a hospitalist group that also covers emergency medicine."

Andrew Tonini, D.O.

Fort Worth, TX

Class of 2015

Conroe Regional Medical Center and Residency gave me the tools I needed to become an amazing, well rounded Family Physician. I felt confident in both my inpatient and outpatient medicine and well trained on obstetric & pediatric care. I had no limitations when applying for a job. I knew I was trained well and I knew I was qualified.

April Enard, D.O.

Sweetwater, TX

Class of 2014

Lonestar is a rigorous program that will prepare you for any avenue of family medicine once you graduate. You leave feeling confident in your abilities as a new doctor: ready to succeed in whatever you choose to do. The faculty are personally invested in your wellbeing and make sure you reach your fullest potential. I am very fortunate to have spent three years training in Conroe.
